Schmidt Shares McNamara's Fate.

Los Angeles, Cal., Dec. 30.—Matthew A. Schmidt was convicted tonight of first degree murder as the accomplice of Jas. B. McNamara in the blowing up of the Los Angeles Times building here five years ago.

The specific charge was of having murdered Charles Hagerty, one of the 20 victims of the Times' explosion. The jury was out 46 minutes.

The jury fixed Schmidt's punishment at imprisonment for life, the same penalty imposed on James B. McNamara after the latter had confessed in court four years ago that he placed the bomb which blew up the newspaper plant.

David Chaplan, another alleged accomplice of McNamara, who was arrested last February, is in jail awaiting trial, also on the charge of having murdered Charles Hagerty.

Dr. Bell's Pine-Tar-Honey.

For your cold, for your cough, for your feverish throat, nose and head, use Dr. Bell's Pine-Tar-Honey. Honey soothes the irritation, Pine-Tar cuts the phlegm, thus relieving congestion. Pine-Tar also acts as an antiseptic, as a result general relief follows. Breathing becomes easier and further inflammation is arrested. Insist on Dr. Bell's Pine-Tar-Honey. It is an ideal treatment. Price 25c.—Adv. 3.

FRICK A SANTA CLAUS INDEED.

To Reimburse 41,000 Children Depositors in Defunct Savings Bank.

Pittsburg, Pa., Dec. 24.—Joy prevailed in the hearts of Pittsburg school children to-night as a result of the announcement late to-day by H. C. Frick, millionaire coal magnate, that he will pay in full, as a Christmas gift, all the accounts of the 41,000 children depositors in the Pittsburg Bank for Savings, which was closed last Wednesday by order of the State Department of Banking. The deposits amount to \$167,136.68, and payment will be made in cash just as soon as the necessary arrangements can be completed, which will probably be about January 3.

In order to induce children to save, a school savings fund was started many years ago. Through an agreement with the city board of education, bank collectors visited the 132 schools in the city weekly. Penny by penny the deposits of the children increased until they amounted to nearly \$170,000. Then, a few days before Christmas, announcement was made that the bank had been closed and gloom fell over the city.

When Mr. Frick, who is in New York, was informed that thousands of children were depositors, he at once communicated with H. C. McElowney, president of another bank, and announced that he would take care of the fund in such a way that the school children would not lose a cent. The proposal was submitted to G. H. Getty, receiver for the closed institution, who secured the approval of the State Banking Commissioner to assist in carrying out the plan. Mr. Frick specified in his proposal that the children were to receive their money without delay.

Guardsmen Prevent Lynching.

Muskogee, Okla., Dec. 26.—Company F of the Oklahoma National Guard was called out at 7 o'clock tonight to disperse a mob which threatened to storm the county jail and lynch two negroes under arrest in connection with the killing of Sam Neil, a policeman, early to-day.

At 3.30 o'clock about a hundred men armed with a railroad rail charged through the line of militiamen and battered down the front door of the jail. They were driven back before they gained entrance. Previously the militia had charged the crowd with fixed bayonets, clearing the street, but the mob reformed.

4,000 Pounds Rubber on Oscar II.

London, Dec. 29.—A British official statement issued to-night says: "It is ascertained that 55 bags of rubber, all consigned to a well-known enemy forwarding agent in Sweden, were removed from the parcel mail on board the steamship Oscar II. The estimated weight of the rubber seized is about 4,000 pounds."

(The Oscar II is the vessel which carried the Ford peace party to Europe. On the voyage across she was taken into Kirkwall by the British authorities and her cargo examined. After being detained for more than 24 hours, she was allowed to proceed on December 16.)

ALL TOGETHER NOW FOR PROGRES IN 1916.

(Progressive Farmer.)

With the coming of the New Year, every reader can find no better job than that of planning to make 1916 a banner year in substantial progress and achievement. The old year is behind us, and the best that it can offer us now are the lessons from its experiences; the New Year, the future, is ahead, with boundless opportunities for every clear-thinking, clean-living, hard-hitting Southern man and boy. How can we realize on these opportunities? What can we, each and every one of us, do to make our farms, our homes, our communities a little better, a little happier, bring them a little nearer to that goodness and perfection at which all effort should aim? It seems to us that here are some of the ways:

1. Our farms must be made to produce more per acre and per farm worker, and we must learn for all time to keep at home, for our own enjoyment and enrichment, the products of our labor, rather than expend them as we have in the past for what we should have grown ourselves. In a word, we must make our fields fat, mellow and fruitful, and we must inaugurate—right now—a live-at-home policy that will make us forever independent of the grain, hay and meat of the North and West. This means a "carpet of green" on every acre in winter crop rotations, plenty of livestock for meat, milk and butter, and the production of cotton, tobacco, peanuts, etc., as surplus crops that, when sold, will be practically clear, net profit. This is step No. 1 on the road to independence and better living.

2. We must pay more attention to the business side of farming—to more advantageous buying and more profitable selling. To do this co-operative effort is essential. Neighbor must join with neighbor and buy in large lots and at wholesale prices what hitherto has been bought in small lots at retail prices; neighbor must join with neighbor and sell livestock, grain, hay, cotton and cotton seed by the car load and the train load, rather than by the wagon load—getting benefits, too, from scientific grading and good appearance rather than suffering losses from hodge-podge marketing without regard for grades or looks. Thus and thus only can we obtain the fullest possible returns from the crops we have grown.

3. Finally, we must learn to know and love our neighborhoods, for only by so knowing them and loving them can we work unceasingly that they may be made better and happier places to live in. The community must become a solidified unit, with definite plans for community betterment and upbuilding, rather than a helter-skelter of opposing, non-co-operative forces, without cohesion and without concerted effort. There are boys and girls to be trained for life's tasks, and the best of schools and the best of teachers are none too good for them; there are communities waiting to be kept together by the common ties of united effort and purpose. To help in this great work is a privilege; even more; it is a duty that we all owe.

Are your efforts, dear reader, pledged to the attainment of these ends? Are you resolved to make yourself a better farmer individually; to increase your profits through co-operative buying and selling; to join heart and soul with your neighbors in plans for community improvement? If so, then you may indeed expect 1916 to be a banner year, a golden year indeed, when the record of your life is made up.

Clyde Clement Seeking Pardon?

Spartanburg, Dec. 30.—Governor Manning has made a request of the Clerk's office for records in the case of Clyde Clement, the former Wofford Fitting School student, convicted in this county two years ago of murder in connection with the drowning of an infant in Lawson Fork, a stream east of the city, and sentenced to life imprisonment. It is believed here that petitions have been filed with the Governor asking a pardon for Clement, who is now serving his sentence on the county chain gang.

Clement, it will be recalled, was tried with Fleda Pendleton, the mother of the child, and while the girl was acquitted he was found guilty and given a life sentence. One of the last official acts of Ex-Governor Cole L. Blease was to commute his sentence from life to ten years.

He is Cousin to Grand Parents.

Ashtabula, Ohio, Dec. 31.—Gordon Scoville, newly arrived on terra-firma, is a cousin to his own grandparents. Thus: a year ago S. G. Scoville, 22, married Ursula P. Scoville, his fifth cousin, their grandparents being cousins. That makes Gordon a sixth child cousin to his grandparents, who are still living.

You've hit the right tobacco

when you fire-up some Prince Albert in your old jimmy pipe or in a makin's cigarette. And you know it! Can't get in wrong with P. A. for it is made right; made to spread-smoke-sunshine among men who have suffered with scorched tongues and parched throats! The patented process fixes that—and cuts out bite and parch. All day long you'll sing how glad you are you're pals with

PRINCE ALBERT

the national joy smoke

You take this testimony straight from the shoulder, men. You can smoke a barrel of P. A. without a kick! It hands out all the tobacco happiness any man ever dreamed about, it's so smooth and friendly. It's a mighty cheerful thing to be on talking-terms with your pipe and your tongue at the same time—but that's what's coming to you sure as you pin your faith to Prince Albert!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

It's an easy job to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, but it is impossible to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Everywhere tobacco is sold you'll find Prince Albert awaiting your cheerful visit. Buy it in tidy red tins, 5c; tidy red tins, 10c; handsome pound and half-pound humidor—and in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco so fit!

MILLIONS MORE IN WAGES.

Salaries of 200,000 Employees to Be Increased in New York.

New York, Dec. 30.—Wages of 200,000 employees in various trades in this city will be increased beginning January 1, it is estimated to-day. The increases are expected to aggregate millions of dollars. Thousands of workers on street, subway and elevated railroads are included among those who will profit by the advances.

The united board of business agents for the building trade unions announces that the wages of more than 8,000 machinists, tile layers and lathers already have been increased by from 20 cents to \$1.40 a day. Increases beginning January 1 are demanded by many other unions and range from 25 cents to 50 cents a day. Increases in pay have been granted to 12,000 girls in the millinery trade, 3,000 waiters and to 1,200 mechanics in the New York navy yard. Employers say they do not remember a time when more labor organizations asked larger pay than at present nor when so many were obtaining it.

Jap Steamer to Bottom.

London, Dec. 23.—The new Japanese liner Yasaka Maru, which was sunk in the Eastern Mediterranean Tuesday by a submarine while the steamer was on her way from London to Japan with 120 passengers and a crew of 160 aboard, was sent to the bottom without warning, according to a report received from Port Said from the agents of the owners.

All on board the ship, including one American passenger, W. J. Leigh, were saved. The nationality of the submarine is not mentioned by the agents, and previous reports referred to the sinking of the ship as done by either an Austrian or a German submarine.

The Yasaka Maru was sunk Tuesday afternoon. A French gunboat picked up the passengers and crew at midnight and landed them at Port Said Wednesday morning. The company provided hotel accommodations for them and is arranging to forward them to their destinations. On the passenger list were 51 men, 54 women and 15 children, most of whom were British subjects.

Wilson Now Past 59 Years.

Hot Springs, Va., Dec. 29.—Belated telegrams congratulating President Wilson on his 59th birthday continued to-day to pour into Hot Springs. The President and Mrs. Wilson spent the forenoon to-day reading and replying to the telegrams.

After a morning rain the sun came out and the President and his wife expected to play golf or to motor in the afternoon. Another long letter from Secretary Lansing was received to-day by the President.

Rheumatism!

How is rheumatism recognized? Some have said—

Rheumatism is a dull pain.
Rheumatism is a sharp pain,
Rheumatism is sore muscles.
Rheumatism is stiff joints.
Rheumatism is a shifting pain.

All have declared—*Rheumatism is Pain.*

Sloan's Liniment applied:—

The blood begins to flow freely—the body's warmth is renewed—the congestion disappears—the pain is gone.

KILLS PAIN (GUARANTEED)

Rheumatism and allied pains yield to the penetrating qualities of this warming liniment.

Two Austrian Destroyers Sunk.

Paris, December 30.—Two Austrian torpedo boat destroyers have been sunk as a result of an encounter with sea forces of the allies at a point outside of Cattaro, in the Adriatic. The purpose of the Austrian ships was to bombard Durazzo. An allied squadron went to meet them, with

the result above set forth. In addition the remainder of the Austrian squadron was pursued by the warships of the allies and compelled to flee towards the Austrian base.

The greatest thing in modern feeding is MOLASSES. It cuts down the feed bill and builds up the stock.

RED SHIRT HORSE AND MULE MOLASSES FEED

It's something the horses and mules like—gives them an appetite—starts the saliva running and aids digestion. Far superior to an all grain feed. Give your horses and mules a treat, and at the same time save money.

Our RED SHIRT (first grade) Horse and Mule Molasses Feed contains Corn, Oats, Ground Alfalfa, made appetizing with salt and pure cane molasses, and analyzed as follows:

Protein 10%; Fat 3%; Fibre 12%; Carbohydrates 57%

PIEDMONT HORSE & MULE MOLASSES FEED Second Grade—Analyzes: Protein 12%; Carbohydrates 55%; Fat 2%; Fibre 12%; Carbohydrates 55%

SWAMP FOX HORSE & MULE MOLASSES FEED (3rd Grade) This analyzes: Protein 9%; Fat 2%; Fibre 12%; Carbohydrates 55%

PERFECTION HORSE & MULE FEED (Dry Mixed) We manufacture also a dry mixed (no Molasses) Horse and Mule Feed, which analyzes: Protein 12%; Fat 3%; Fibre 12%; Carbohydrates 57%. This is composed of straight grain and ground Alfalfa Meal.

RED SHIRT DAIRY FEED

First Grade: A balanced ration containing Molasses. Cattle are very fond of it—keeps them in good condition. Increases the flow and enriches the quality of the milk at a reduced cost of feeding. Contains ground Corn, C. S. Meal, Wheat Middling, Ground Alfalfa, Pure Cane Molasses and Salt. Analyzes: Protein 15%; Fat 3%; Fibre 12%; Carbohydrates 60%

PIEDMONT DAIRY FEED Second Grade—Analyzes: Protein 12%; Fat 2%; Fibre 12%; Carbohydrates 55%

RED SHIRT HOG FEED A combination of Digestive Tankage, Ground Corn, Rice screenings; very fattening. Keeps the hogs in good condition.

We manufacture also RED SHIRT Scratch Feed and RED SHIRT Baby Chick Feed.

"SEVEN EGGS A WEEK" HEN MASH Composed of Ground, Corn, Ground Oats, Ground Wheat, Barley, Malt, Rice, Cottonseed Meal, Cow Peas, Meat Meal and Lined Meal. Analyzes: Protein 18%; Fat 4%; Fibre 12%; Carbohydrates 40%

As shown on the bags in our ad, nearly all of our feed is made from Carolina products, even to the bags and twine. We are, therefore, in the market for Oats, Corn, Wheat, Alfalfa Hay and any other kind of Hay.

We also carry a full stock of GRAIN, HAY AND STRAW.

Our feeds as shown above are mixed on scientific principles to furnish the greatest nourishment at the lowest cost. Let us show you how we cut your feed bills down. Write us for prices, etc.
